

What are Mobile Crisis Services?

.....

Mobile Crisis Services are mental health services for people experiencing a mental health crisis.

Responders are mental health practitioners who offer onsite intervention. Mobile Crisis Services aims to help individuals resolve a mental health crisis and avoid unnecessary hospitalization, inpatient psychiatric treatment, involuntary commitment, and arrest or incarceration. Mobile Crisis Services works collaboratively with the community members of Clatsop County, hospitals, mental health outpatient services, crisis line providers, and first responders to increase the safety of individuals in a crisis.

The logo for Clatsop Behavioral Healthcare features a dark blue silhouette of the state of Oregon. Inside the silhouette, the words "CLATSOP BEHAVIORAL HEALTHCARE" are written in white, uppercase, sans-serif font, stacked in three lines.

Mobile Crisis Facts

- More than 700,000 people die by suicide each year across the globe. (World Health Organization)
- Suicide is the 12th leading cause of death in the United States (CDC, 2020)
- Suicide is the 3rd leading cause of death for ages 15-24. (Save, 2020)
- Oregon has the 11th highest suicide rate in the Nation. (SAVE, 2020)
- 43.9 emergency department visits per 1,000 persons per year with a diagnosis of a mental health disorder. (CDC, 2020)
- "Person-centered crisis care requires a service array to address the whole person, and this means helping them with needs regardless of whether their primary issues are situational, related to severe mental illness, substance use challenges, or a combination of these. The call for nimble service provision to address this vast array of considerations is a tall but necessary order."(SAMHSA, 2020)
