

SUPPORT SERVICES AT OPEN DOOR

The Open Door program is comprised of Community Support Services (CSS) and the Assertive Community Treatment (ACT) team. Open Door provides community and office-based services for clients living with a severe and persistent mental illness. The program focuses on meeting clients where they are to help them achieve their goals. The CSS and ACT teams collaborate with outpatient programs across Clatsop Behavioral Healthcare (CBH) to ensure that clients receive the support they need to thrive. Services available include case management, peer support, individual and group therapy, medication management, addiction treatment services, supported employment, and skills training.

COMMUNITY SUPPORT SERVICES

Community Support Services is the case management team at Open Door. They collaborate with CBH outpatient programs to connect clients with severe and persistent mental illness to needed services and resources. Case Managers provide planning, engagement, care coordination, and skills training to ensure clients are connected to every appropriate resource. CBH believes everyone deserves the opportunity to pursue their goals at their pace; the Case Management team is here to help turn goals into reality.

ASSERTIVE COMMUNITY TREATMENT

Assertive Community Treatment (ACT) is an intensive, community-based program for individuals experiencing severe and persistent mental illness. ACT provides comprehensive services by collaborating and coordinating with CBH outpatient programs, including individual therapy, medication management, and substance use disorder treatment. The ACT team supports clients in living in the community, participating in treatment, and managing their health independently.

ACCESSING SERVICES

New clients may call (503) 325-5722 to speak to the Enrollment Center, or complete intake paperwork via our website – www.clatsopbh.org.

For **urgent needs**, please visit the Rapid Access Clinic at 115 W Bond Street, Astoria.
